# Health Data Course: Spring 2022

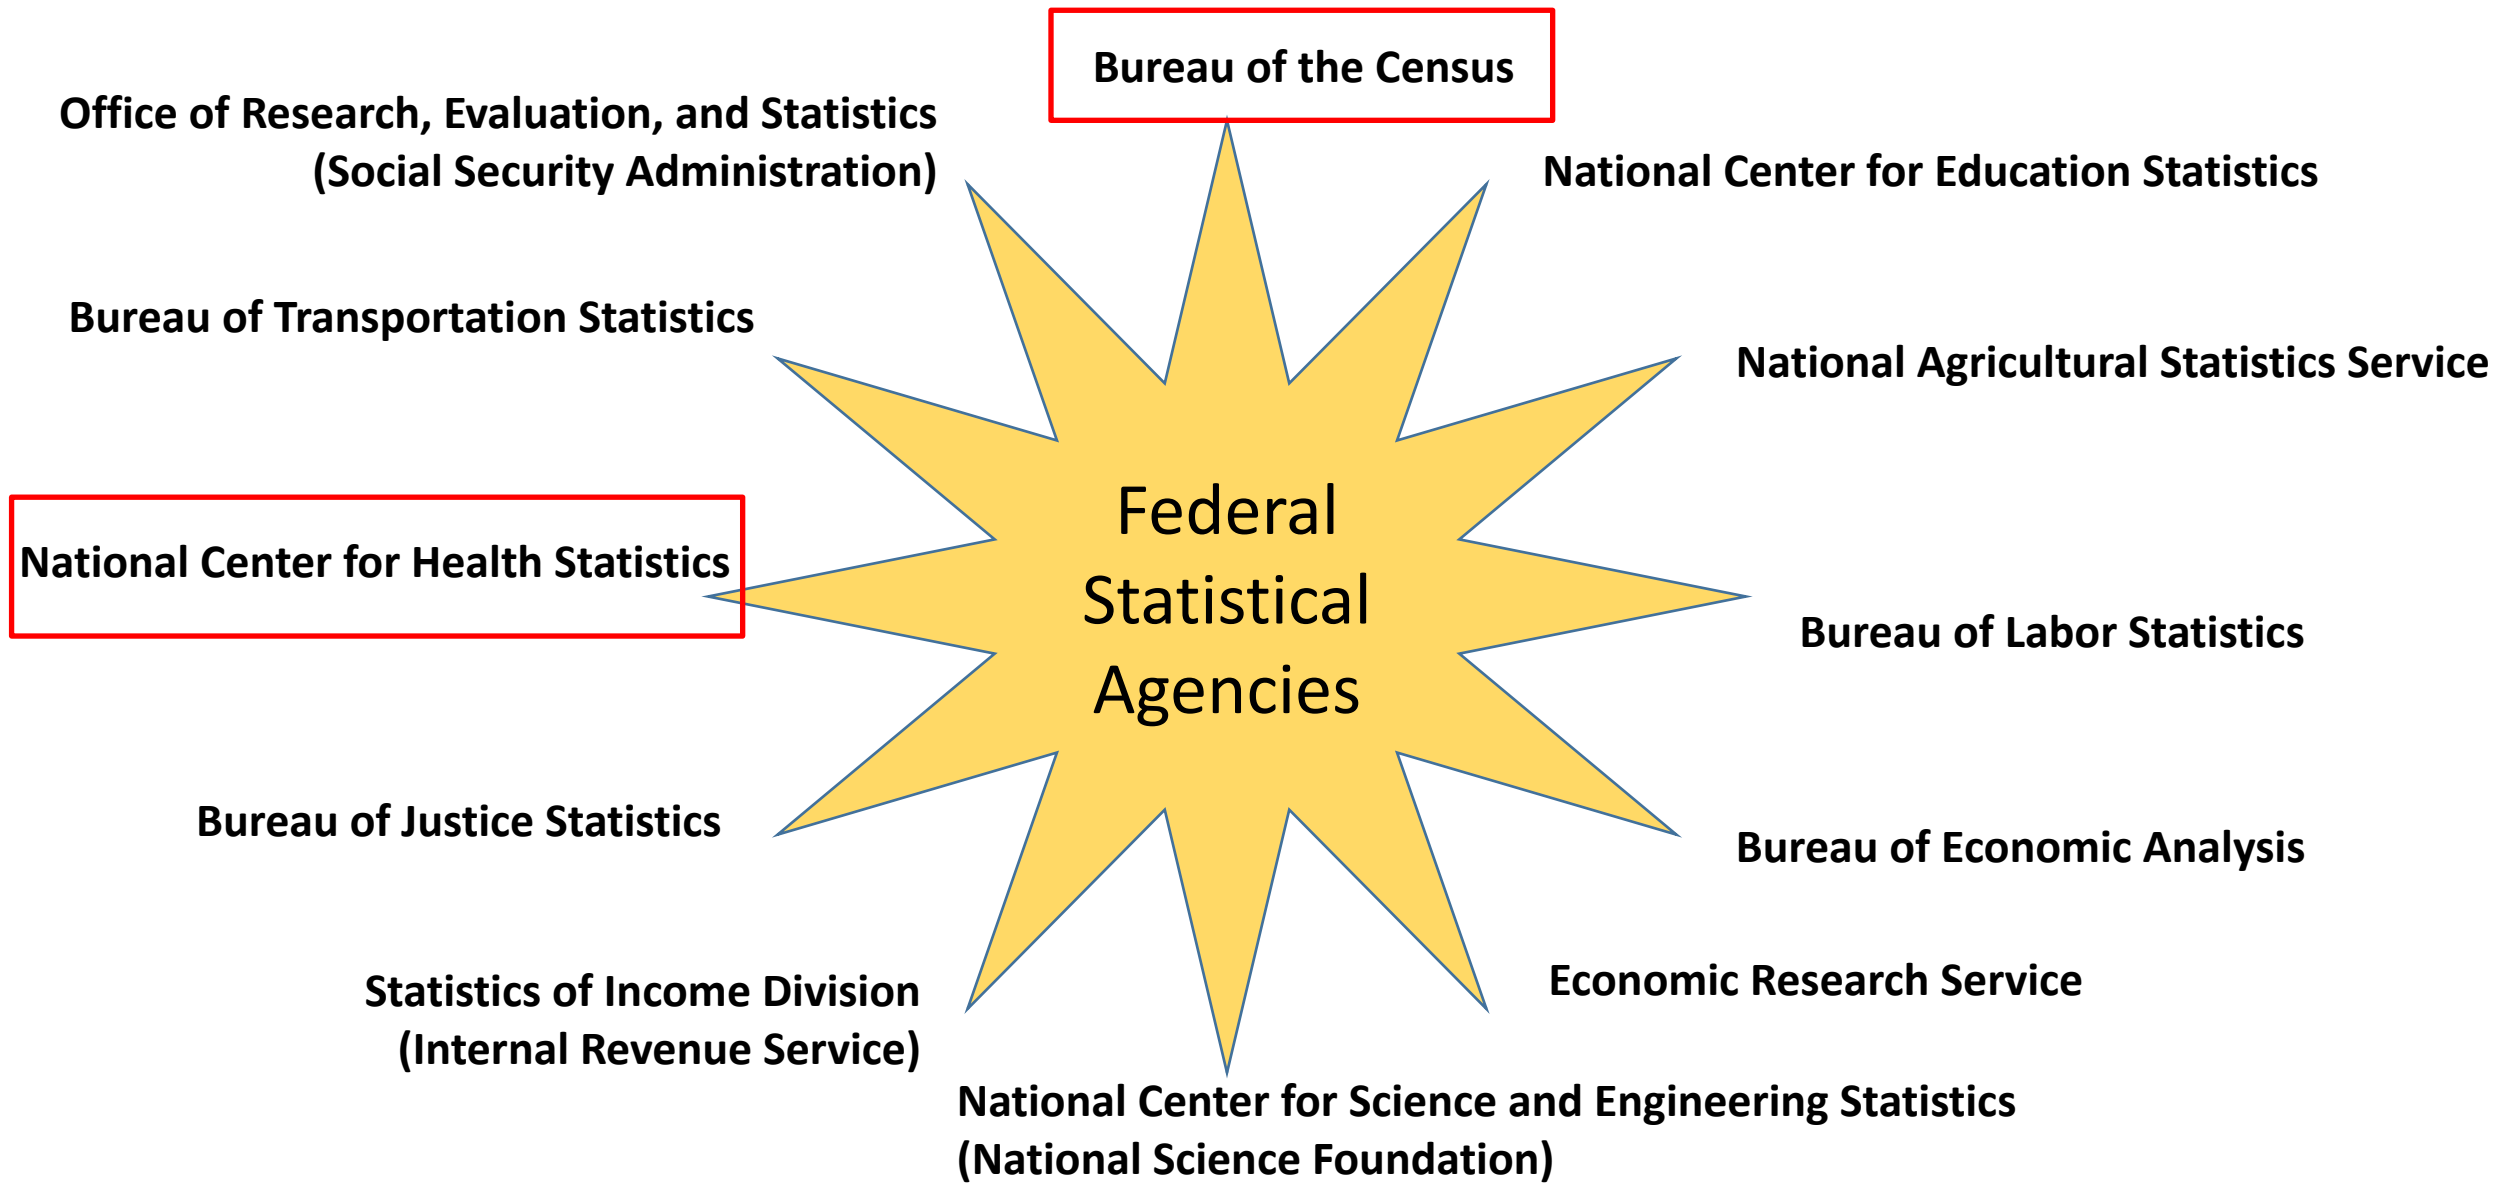

## “Federal Statistical Data for Health Research and Policy”

1. Offered to all RMRDC Consortium Member Institutions at no cost
2. Targets early-career graduate students
3. Students develop the knowledge and skills required to effectively use a variety of federal statistical data sets for health research and policy analysis.
4. Students get “hands on” exercises using SAS to analyze public versions of the federal data sets
5. The semester project is a restricted data proposal.
